Located in Caldes de Montbui, Barcelona, in the Catalonia region of Spain, HOBERSAL was founded in 1946, specializing in the manufacture of muffle and tube furnaces up to 2000°C, vacuum, melting, ashing, retort furnaces, ovens up to 500°C, customized furnaces, heating plates, accessories and spare parts.

The company is now the leading furnace manufacturer in Spain and other countries.

HOBERSAL realized early on that the secret of manufacturing furnaces is to use quality materials. Throughout the company's history, a network of distributors has been established on over 40 countries, selected for their

laboratory and industries' knowledge and ability to provide technical assistance to their customers.

This catalogue offers a comprehensive range of quality equipment. Always innovating, we will continue to offer the latest technology backed by our service and technical assistance.
